

ResinLab®

AN ELLSWORTH ADHESIVES COMPANY 

ResinLab® UR700I is a colorless, two-part, polyurethane adhesive. This fast curing formulation provides excellent adhesion to a broad range of substrates including polycarbonate, PVC, acrylic, ABS, wood, and some metals. UR700I has a 1:1 mix ratio by volume designed for use in side-by-side cartridges as well as bulk meter mix dispense equipment. Product is ISO 10993-5 certified.

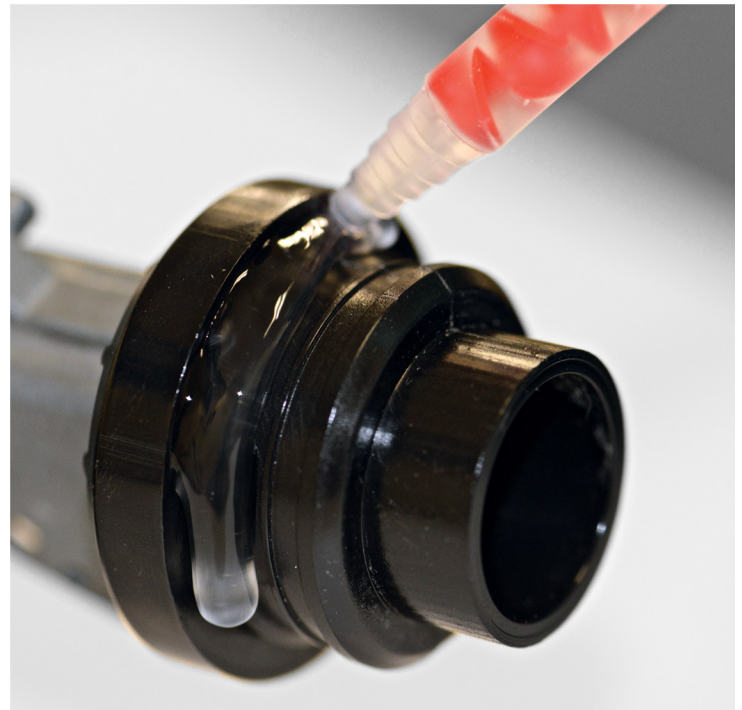

UR700I Features & Benefits:

- High tensile strength for superior structural bonding
- Excellent adhesion to many plastics including acrylic and polycarbonate
- Convenient 1:1 by volume mix ratio providing side by side cartridge dispensing options
- Fast room temperature cure
- Medium viscosity with colorless bond line
- ISO 10993-5 certified

UR700I Properties:

Viscosity	Gel Time
10,500 cps	8min/100cc sample
Hardness	Tensile Strength
72 Shore D	5,700 psi
Modulus	Compression Strength
280,000 psi	28,000 psi
Cure Time	Glass Transition Temp
24 hours @ 25 °C	33 °C

UR700I

is available in:

50ml cartridges

400ml cartridges

Gallon kits

5 gallon pails
